Medicare Implements 4% E Prescribing Incentive Program for 2009

PHYSICIANS MAY EARN PAY BOOST OF UP TO 5.1 PERCENT FROM MIPPA UPDATE PLUS E-PRESCRIBING AND PQRI INCENTIVES

Physicians and other eligible professionals who adopt and use qualified electronic prescribing (e-prescribing) systems to transmit prescriptions to pharmacies may earn an incentive payment of **2.0 percent of their total Medicare allowed charges during 2009**. This incentive is in addition to a **2.0 percent incentive payment for 2009 for physicians who successfully report measures under the Physician Quality Reporting Initiative (PQRI)**, and both incentive payments are in addition to the **1.1 percent fee schedule update required by the Medicare Improvements for Patients and Providers Act of 2008 (MIPPA)**. Thus, a physician who successfully reports under both the e-prescribing and PQRI initiatives could receive up to a **5.1 percent pay boost for 2009**.

The revised policies and payment rates will become effective January 1, 2009.

For more details on the general provisions of the rule, as well as CMS's implementation of the PQRI and e-Prescribing initiative, and MIPPA changes, see the Medicare Fact Sheets posted at: www.cms.hhs.gov/apps/media/fact_sheets.asp

Just a reminder... the year end is a great time to finance software & new equipment to maximize your 2008 tax deductions. Please call us if there is anything we can provide you with to help cut your tax bill with the Section 179 Deduction.

Improve Practice Productivity with PeakPractice

Eclipsys PeakPractice PM provides performance reports and financial analyses so you can manage your practice's financial "health" proactively. Eclipsys PeakPractice PM can be purchased stand-alone and interfaced with your existing EMR solution, or with Eclipsys PeakPractice EMR. Through true integration, Eclipsys PeakPractice EMR/PM can deliver more timely and accurate coding and reduce errors to increase reimbursement.

**Join us for another PeakPractice Demo:
Friday, December 19th @ 12pm EST**

Thank you to all of you who attended last month's demo! If you missed it or would like to see more of the product, please contact Kayla at 248-840-3100 x31.

2009 Support

We would like to take this opportunity to thank you for allowing us, the employees of DarwinTech, Inc., to be your Information Technology products and services company. We take great pride in delivering the very best in service to those of you who have entrusted us to help you achieve your personal and professional goals.

In the last year, we have tripled the number of staff we have available to help deliver on our promise of exceptional customer service. Our official customer support hours are from 8:30 a.m. to 5:30 p.m. Monday through Friday excluding major holidays. As many of you know, we can be available for system updates, etc. after hours and on some weekend days if necessary.

2 Hour Support Guarantee

Earlier this year, we developed a software application which times stamps calls left in our voicemail. All employees know that we are to keep this application open at all times and to return phone calls within a two hour window of the time the calls are made to us. So please utilize this system with the knowledge that you will receive a timely call back if you have to leave a message.
